This PDF (generated from LibreOffice 5.1.4.2) demonstrates some text that can be redacted.

Here are some fake SSNs

XXX-XX-XXXX   XXX-XX-XXXX XXX-XX-XXXX

And some more with common OCR character substitutions:
XXX-XX-XXXX XXX-XX-XXXX XXX-XX-XXXX XXX-XX-XXXX XXX-XX-XXXX

Here's an XX character in both fonts so that substitution works.
